

**CASTAWAY® MICROREADY® CONTAINERS**

## CASTAWAY® MICROREADY® HOME MEAL REPLACEMENT CONTAINERS

*The Innovative Difference!®*

### features

- Microwave and freezer safe – Serve now and eat later
- Uniquely designed lid and base grooved to guarantee easy and secure stacking
- Separate base to lid improving food preparation and serviceability
- Strong and durable, shatter proof polypropylene base and lid
- Black base improves presentation, while natural lid keeps you free from spills
- Natural lid vented so you can microwave with the lid on, keeping your microwave clean and splatter free.

### range

The Castaway® MicroReady® range of home meal replacement containers are designed to meet the varied single serving needs of your customers; available in a round bowl, oval bowl and round plate with lids to match, both wet and combination meals are catered for.

### design

Castaway® MicroReady® home meal replacement containers are designed as a family, to provide your customer with the impression of generous servings while allowing you to control portion sizes. As the takeaway meal market is becoming increasingly sophisticated so should the means for delivering your upmarket meal to customers. The Castaway® MicroReady® range delivers the microwave safe properties of standard takeaway containers, but with stylish container profiles, shaped to best display your dishes, enhancing your customers takeaway meal experience and improving your return business.

### hygiene

Castaway® MicroReady® home meal replacement containers are packed in controlled hygienic conditions where product is sealed in sleeves and packed in easily identifiable outer cartons to ensure hygienic transportation and storage.

### recyclable

Castaway® MicroReady® home meal replacement containers and its packaging are recyclable where suitable recycling facilities are available.
